20 APR 56

MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: Participation in Tour Program for High School Graduating Classes

1. This memorandum submits a recommendation for DD/S approval. Such recommendation is contained in paragraph 3.

2. The attached clipping from The Washington Post and Times Herald for 16 April 1956 describes a new program for providing orientational visits to some Government agencies for high school graduating classes visiting Washington. We believe that our participation in such a program could be accomplished by inviting the classes on tour to an unclassified briefing in Central Building. Such a briefing could give the students an unclassified description of our mission and would provide an excellent opportunity for interesting them in later employment with the Agency—either immediately following graduation from high school or later for those students who go on to college or into the military service. Our recruitment officers would establish contact with participating schools before the tour and conduct follow-up, positive recruitment at the school following the tour.

3. We realize that there are policy implications in this proposal which are considerably broader than our particular interest in building up our recruitment program. Accordingly, your approval in principle is requested before we make approaches to the Director of Security and, assuming acceptance there, to the Director of Central Intelligence through you.
